THE CENSORING OF MAILS.

PROTESTS AT SHANGHAL

The China Press of August Nothenys :-Officials of American commercial organizations in China yesterday drafted protests against the censorship placed on American mails arriving Sunday on the Empress of Russin. The protests referred to the acts of the British officials as "intolerable and a serious hindrance to trade." U.S. Consul General Sammons prepared a complete report on the opening of the mail which he has forwarded

to the State Department. afternoon twenty-seven protests from mission to do so to the Captain Super-American individuals and firms had been intendent of Police, at least 48 hours received. An amusing incident of the before the intended hour of departure, affair was the receipt of a number of giving name, nationality, age, sex, height protests from British subjects who and occupation of the applicant, and received consored mail from the States stating the name of the steamer or other on Monday morning. They were under vessel or the bours of the train by which the impression that the muil had been the applicant wishes to leave. Applicants opened by the U.S. Postal Agency heads should apply in person for their passes at in Shanghai-" which was a horse of an the Central Police Station, between the entirely different colour," as one American hours of 9 s.m. to 1 p.pi. and 2 p.m. to NORTH BRITISH & MERCANTILE

The protests of the American com-mercial bodies here will be forwarded to the United States Chamber of Commerce at Washington as well as to the State Jourtment.

## THE ALLIED OFFENSIVE.

SOUND STRATEGY:

'No feature of the Allies' tactical offensive is more remarkable and more reassuring of the outcome, than the proofs it has disclosed of sound military. judgment. The attack on the East was launched when the Germans were still driving at Verdun. They, had counter-attack from Kovel. Was our onset on that account premature? No. Had the Russians been forced back either that chief strength must be manifest—and real. In order to meet it Broussiloff would have been compelled to modify his operations in Bukovina. That was the German aim. Command has thus unexpectedly been He was not so compelled, and the called upon to face. Are they to fight counter attack exhausted itself without fronts as they stand, or are they to result. The Russian offensive, therefore, attempt retirement. If they adopt the was not premature, and the judgment first alternative their fronts, breached which had chosen the moment for it and by attack, will be rolled up section by had estimated the extent of the enemy's section. That result is by this time decline, despite appearances, was a good simply of how long the process will judgment, Not less sound was the choice take. If, on the contrary, they choose of the moment for the attack upon the the second alternative of retirement West It was the moment when, having step by step, the result is foregone equally. There might have been a doubt about the demonstration had the enemy's embarrassment on the East had assault upon the German positions on under the sharpest temptation to

become scute—the moment when he was the Somme failed. It might then, and relieve that embarrasment by drafts Fast because the lines were held by from his Western front : the moment at Austrians. Indeed, in Germany this MANILA. Messrs Macondray & which a successful attack on the West, by | was said. rapidly reducing him to a tactical defensive on all fronts, would not less rapidly and evidently complete the proved that lines held by Germans can GLASGOW. Messrs A. R. Brown. initiation of a new phase of the war, no more resist the onset of efficient

on the astonishing. part of its effect. The Germans find the strongest on the enemy s front; they themselves called upon to face this de were defended by a specially mustered fensive phase literally without notice, and picked body of his best troops added. Their military organisation was planned to the garrison on the spot. Nothing for attack. Their traditions were con-could be more conclusive. But the battle centrated upon attack. Their tactice, of the Somme is significant on other with weight of gun-fire as the grounds, besides providing that the Ger-main motive force, were driving man ramparts are not impregnable. It SINGON & CO. main motive force, were driving man ramparts are not impregnable. It tactics. On the elaboration of those affords a test of the comparative efficiency tactics they had expended all their skill. of the Allied armies and the German Such tactics of defence as they have srmy. The positions seized by the Allies adopted in the course of the war are north and south of the river are at least essentially immobile tactics. The as difficult; and "twice as extensive" as

BREACHING THE LINES. With extended lines, lengthened communications, and a thinned but defensive force they might still have of the Germans in the Verdun fighting hoped to fight through this defensive The comparison is arresting. The phase of the war if the lines could not be breached ... The fact that lines can be breached, and on the East have been breached, makes as anybody can see, all the difference.

#### \*\*\*\*\*\*\*\*\* COUGHING INTO "Only a Cough? but you stop it while it is ONLY a cough.

WATERBURY'S METABOLIZED COD LIVER OIL COMPOUND

The finest preparation made for combaling severe coughs. T CURES any cough mat is only a cough. Very palatable OF ALL CHEMISTS

\*\*\*\*\*\*\*\*\*\*\*\*\*\* Priver: 21.05 and 22.05

ence. In face of that fact there is, whatever may be asserted to the contrary, no hope of fighting through this phase of the war on the basis so carefully schemed. Other defensive tactics have in consequence, to be thought out, and beyond doubt at this very moment they are being thought out in But defensive tactics in which the main reliance is placed upon heavy artillery have never been heard of, and never will be. In defensive tactics in the field the essential element is superior mobility. Heavy resources enough also to attempt their artillery is, of course, the least mobile part of any force. When, therefore, the chief strength of man force is at the same time the slowest, upon Luck the setback would have been abandoned, or the force as a whole must submit to be outmanœuvered. In either event it will be defeated every time it is compelled to fight.

This is the enigms the German Higher Russians had broken through on the

A CONCLUSIVE TEST.

But the battle of the Somme has Considering the gigantic scale of the troops than lines held by Austrians war the swiftness of the change borders Nay, the demonstration is much more emphatic. The positions attacked on the Its swiftness, however, is no small Somme were not merely reckoned among territory that they have occupied east those which the Germans have been and west is looked upon already as a sole so far to seize at Verdun. The part of Germany. On that point it is operation of course was carried out, in solvents and Shipchanding Nos. 35 and the other instance it occupied five 17. Him Looke Street, Can Street, west mouths. The losses of the Allies on the Somme have so far not been a fifth and the expenditure of ammunition not a tenth of the losses and the expenditure

> in a tenth of the time. Nor is it natural bravery alone thas has done it. It is emphatically the effect of skill. We all know the qualitiet. of the French army and the brilliance of its leading. Not everybody was prepared for the discovery that the British army is a homogeneous force of equally first-class fighting men Least of all were the Germans prepared for it. They have not then simply to devise, if they can, effective tactics of defence against troops equal to their own, though stronger in numbers, they have to devise tactis against troops strikingly superior to their won. No spirit of bonsting need enter into a statement of that kind. It in the level truth Westminster

Allied forces have done double the work

THE GRAND CANAL OF CHINA.

> THE SCHEME FOR ITS IMPROVEMENT.

Mr. W. F. Caroy, of the firm of Simr and Carey, of Se. Paul, Minn, who the contractor for the big job that the American International Corporation has undertaken in the reopening of the Grand Canal of China, returned to the Far Eas on the "Empress of Russia," arriving at Yokohaing on 22nd ult., says the "Japan country could scarcely be realised." Advertiser."

Mr. Carey has been in the United Earrings, Kiangau Provinces, Linking the Yellow ing and then leave for Peking,

WILL BE TRANSPORTATION HIGHWAY. cans who have always contributed liberally to the flood and famine relief funds in China. The re-dug Canal, running southward from Peking, will afford the chief means of transportation between North and South China.

C. D. Jameson, a Red Cross engineer, who surveyed the territories traversed by the Grand Canal and Huai River, reported that with the expenditure of \$35,000,000 more than 17,000 square miles could be made immune from floods, and that two crops of gmin could be raised in a year over this great district, instead of two crops in five years. Besides insuring cultivated land against floods, he esti mated that 1,000,000 acres of fertile swamp land could be reclaimed.

CHINESE CANALS HAVE FIVE THES.

A canal in China serves five ends. The litch serves to drain swampy land and render it fit to form. The mud and silt from its bottom, spread upon the fields. renews the vitality of the soil. The canul serves to relieve flood pressure, its waters. carry commerce, and from it those districts having irregular and uncertain rainfall irrigate their crops and insure the success of their farming.

The Chinese Republican Government two years ago authorized the negotiation of an American loan of \$20,000,000 gold for the improvement of the water-courses in the Huni River district of Shantung Province. This move was brought about by the activities of the American Red Cross Society, which has always led in the relief of the famine districts and by the independent reports of several Chinese Ministers who had conducted person investigations and had persuaded the late President Yuan Shih-kai to establish a National Irrigation and Water Conser-

vancy Bureau. China much to the sorrow and chagrin and the term of the loan 80 years. Reof Americans resident in the Far East demption of the loan will begin after the and when the Red Cross Society had been fifth year and will be paid in 25 equa authorized toll negotiate the necessary loans, the bankers, whom they consulted could not sie their way clear to put so much money in a remote and doubtful which the Government will derive from project, while Europe under stress of war them; also the tares from other lands conditions offered more fugrative invest- which will be improved by the work and

and by confining it to the improvement that part of the Grand Consl in south of the historic Grand Canal, with which Shantung which will be improved. the name of the great Mongol conqueror . A head works bureau is to be established Kublai Khan is associated in the mind ed at Tsining Haien, where a Chinesis of every school boy, the enterprise took director general, an American chief engi on an aspect none the less benevolent neer and a chief accountant will be and at the same time more substantial charge. The Corporation pledged itself to as an investment. The Red Gross Society | complete the work within 30 months meanwhile had engaged Jameson and Colonel Siebert to survey the afflicted districts and to estimate the cost reclamation work. On the basis of their reports, the proposition was brought to American International Corporation

the Red Cross FINANCIERS GET INTERESTED. As the Grand Canal has had through, out its history, a large past to play, not only in the drainage and frigation of a large district between the Yellow River and the Yangtaze River but also in the vast inland commerce between the North and the South, the financial folk who had at first refused to take up the scheme in its entirely at last picked out the great Khan's Tribute River as a busines venture and definitely planned their work and engaged their contractors and

The work will be divided into two sections covered by two separate loans. The southern half of the Canal in the Province of Kisngsu, north of the Yang. thre River, will be dealt with a undertaking, for which a gold loan of \$30,000,000 will be floated while the district through which the Canal passes in the Province of Shantung will be another venture to be tinanced by a similar gold loan with an initial bond issue of \$2,500,000

CHINA A LAND OF CATASTROPHES. Chins is a land of stupendons catagtrophes. The most thickly populated dis-20 Fricts and the most fertile are the broad tow plains over which the great rivers ample about of their own caprice now fertilizing, now deluging and devestating Every year thousands of lives and the results of untold labour and great invest. ments are wiped out by the freakish behaviour of some big stream which broaks its bounds, changes its course or During the Manchu era-the investigations of the Red Cross Society, and the Chinese Ministers revived interest in the Canal which had come to be repected to the skill and energy of the ancient YUAN BECOMES INTERESTED.

Yuan Shih-kul was so impressed in 1913 by the reports of his Ministers upon the possibility of checking floods and draining vast awamp areas that he created the Central Bureau of Irrigation and Water Conservancy in January 1914, and arranged at once for the amployment of

foreign exports as advisors and engineers. These experts reported that the benefita which the Chinese people would reap for such a metamorphodis is the re-made Canal would effect in the face of their

There are at present belts of land many miles wide and hundreds of miles long States about four months, making arrange- beside the courses of all the great rivers ments for the beginning of the work on which no one has the courage to till for the ismous canal in Shantung, and fear of floods. The districts are all overpopulated and famine drives thousands and the Yangiaze Rivers. A staff of men into brigandage and beggary avery year. who will direct the work in China Dishonest officials resp. rich harveste from accompany Mr. Carey, who will remain misappropriated funds, which are supin Yokohama only until Thursday morn- posed to be devoted to dike building and

When the Chinese Government came to The reopening of the Grand Canal in know about a year ago that there was a China by American capital and engineers chance of having effectual work, done along will relieve the pressure on those Ameri- the Grand Canal and its tributary canals and rivers, a Chinese engineer, Mr. Panfu, was employed to survey the districts and report upon possible benefits. His work was thorough and his estimates of Declaration of London Orders in Council the probable benefits, though cautious and conservative, provoked authusiasm.

WOULD HECKAIM 100,000 ACRES.

Pan-fu asserted that the prospective improvements would result in the reclamation of 100,000 acres of waste land in the neighbourhood of the cities of Tsining and Yutai alone; and that with a littlediking and disching 97,000 series could ciples of the law of nations, believed that very shortly go under cultivation. reported that in spite of the obstruction, find a suitable digest of pinciples and and difficulties in the Grand Canal, was still a favoured water-course and that even then there were 8,050 boats with a total tonnage of 99,000 plying on the Canal, and that with the Canal drained there would be a vast increase in the shipping of a score of valuable local products. The annual profits from the reclamation of the Yutar and Tainan lands; he said, would reach nearly two and

half million dollars. That the character of the scheme is substantial seems evidenced by the will ingness of the American International Corporation, which has been authorized to sell the bonds, to accept the tolls on the Canal and the taxes on Government lands and reclaimed avermps as security. is apparent that the financiers, after careful survey, believe in their, to philanthropic " contract."

TO JASUE \$2,500,000 IN BONDS On the Shantung section the Agreement with the Chinese Central Government au with the Shantung Provincial Government, suthonizes the American International Corporation to make a first issue of bonds for \$2,500,000 gold, the interest America is not greatly interested in upon which is to be T per centaper year

installments. The Government offers as security the lands to be reclaimed and the revenue which are estimated at more than 80,000 By slightly altering the original scheme acres, and the axes and tolls derived from

Under the separate but similar, agree

ment which covers the improvements on the Kiangeu or southern section, which has not yet been fully surveyed, the the attention of the American bankers by authorized to float a loan-for \$30,000,000 U.S. currency, which will be secured by the tolls and axes on the canal, which are now estimated at \$800,000 U.S.

> As a check upon the usual Chinese ystem of enriching, all concerned with contract, the expenditures on the mprovements will have to be passed and greed upon by the engineer-in-chief, the lirector general and the contracting ngineer. The hesdovarters for this section will be established at Tsingkingand will hear the weighty tide. The Huni River Conservancy Grand Canal Improvement Works Bureau office for the general regulation of the whole undersking will also be opened in Peking and a deal of buying and shipping of pative and American supplies, trans- impraical appliances to alleviate their porting of coolies and the like will enliven; sufferings. It was proposed to help the the whole of North China

LAW OF NATIONS AT SEAT

To the United States, Ambassador and other neutral representatives in London the Government have presented a memorandum drawn up by the British and French Gevernments explaining the grounds for the withdrawal, of the and the issue of the Order in Council of July 7, which effected "a changed in the rules hitherto adopted by his Majesty's Government to govern their conduct of warfare at sea during the present hostilities." The text of this memorandum is now issued, as a Parliamentary paper,

At the beginning of the present war the Allied Governments, in their anxiety to regulate their conduct by the prinin the Declaration of London they would compendium of working rules. They accordingly decided to adopt the provisions of the Declaration, not as in itself possessing for them the force of law. but because it seemed to present in its main lines a statement of the rights and the duties of belligerents based on the experience of previous naval wars.

As the present struggle developed. acquiring a range and character beyond all previous conceptions, it became clear. that the attempt made at London in time of peace to determine not only that principles of law but even the forms under which they were to be applied had not produced a wholly satisfactory result. As a matter of fact these rules, while not in all respects improving the safeguards afforded to neutrals, do not provide belligerents with the most effective means, of exercising their

Powers put forth all their ingenuity to relax the pressure tightening about them and to re-open a channel for supplies, their devices compromised innocent heutral commerce and involved it in Suspicions of enemy agency. More-over, the manifold developments of naval and military science; the invers tion of new engines of war, the concentration by the Germanic Powers of the whole body of their resources on

algether different from these prevailing. DESTIONS DAVE WARE The rules laid down in the Declaration of London could not stand the strafe imposed by the test of rapidly changing conditions and tendencies which could not have been foreseen.

The Allies Governments were forex to recognise the nituation thus created and to adapt the rules of the Declaration from time to time to meet these changing

We extract the following from the editorial columns of the New York

"Twisting the British lion's tail" often has been a popular postime of american politics reometimes has found place in severnmental action Mr. Cleveland's Venezuels message was full of dynamite. That the United States, then as always, nitially unprepared to back its w with action, did not find itself in the midst of sinexplosion was due somewhit to the complacent attitude Great Britain maintained toward the "younger brother" of this hemisphere more to the fact that she was busily occupied by the jealousies and conflicts of interests in Europe. It was an almost friendless Great Britain, G Great Britains that could not afford to become involved in serious quarrels in other parts of the world It is a different Great Britain that Mr Wilson is now being urged to bombard. with belicose notes bearing upon the socalled blacklist It is a Great Britain bound in bonds of closest union with Prance and Russia and Italy, and in

bonds simpet as close with the neutral nations of Europe since all of these realize, even if they cannot say so, that their existence depends upon the triumph of the Allies over the militarism that seeks the destruction, not only of the mations it has attacked but of freedom and liberty in Europe A blow at Great British would be a blow at our allies and at the meanral a nations of Europe, and it delivered in this hour of surreme brisk would hotes similar to that on the Bine and institution wake for resentment and

"pin-pricking." The commercial ques tion involved in the so-called blacklist will sottle itself. The right of the British government to prohibit its nationals doing business with firms open for concealed enemy as neghip wherever comiciled, cannot be questioned. The probibition is internal legis-

righted, that if damage is done there For the government of the United States to go any further in its representations than may be deemed neces settlement would be folly. The contrary policy advocated by the tall twisters would prove futile and dangerous. It is age to assume that Mr Wilson will not permit himself to be misled by persons whose urgings are against this nation's interests and his own

lation. There is assurance that i

injustice has been done it will b

#### THE GOVERNOR OF: MACAO.

The Governor of Macao and Madame de Maia are coming down to the Colony to-day and leave by

the Empress of Russia to-morrow for

Senhor José Carlos da Maia. Governor of Macho, is, an officer of the Portuguese Navy. He distinguished himself in the interest of the charged an Indian accused of selling Bepublic" in the last Revolution which overthrew the Monarchical regime in Portugal., For his valu-Inspector Kelly said he bought six able services. Parliament decreed bottles of fresh milk from defendant double promotion for Senhor "Maia. and hone were up to the required who was given command of one of the large cruisers. His election as The Magistrate asked what sort of a Deputy of one of the electoral districts of Lisbon attests his popularity: His nomination as Governor of Macao was made by Parliament.

Senhor Maia's first care on his arrival at Macao was to concern himself with the problems for harbour improvement and the sanitation of the surbuban districts. He succoeded in obtaining sanction from Lisbon for the purchase of a powerful dredger (which had been engaged in harbour improvement works at Singapore) and the building of another has been authorised. In connection with the local harbour works the Governor purchased for the Colony a number of steel barges from Shanghai. For the reclamation works he had purchased three small | locomorives, rails and a mumber c waggons. These have also been used for filling in the unsightly paddyfields in the outskirts of Macao with which visitors from Hongkong sure familiar. These fields have since was this afternoon formally committed him into the trench, burying him. He been transformed into saidubrious Mr. and Mrs. V. G. LYMAN, of for trial at the next Sessions on the was dug out suffering from wounds in districts for habitation." Already a the back and legs, but states he is not number of pretty dwellings have been seriously hurt. Swan added in his crected on the reclaimed and occu-A leking telegram states that letter: "I would not have missed the pied ground. Some of the houses scrapping for worlds." Swan has a have since changed ownership. So as to provide for the needs of the poorer class of Chinese the Governor ordered the construction of a mumber of houses for lease at very small rental; a mere triffle in fact, and in order to stimulate interest in the building of habitations, Governor Maia appointed a Building Construction Committee whose duty it is to

build houses on Government account to be subsequently sold at public subsidiary coin in reasonable amounts auction. To individuals the Govercan be obtained by the public at par nor has given every facility for the erection of two prinals by Nanyang on application to the Hongkong and lease of public land for building

> It was due to His Excellency's applicants have a set metered supply inititative that the Volunteer Corps was formed as well as the Boy Scouts Association at Macao. He has assisted the development of both these organisations by his personal support. The Fire Brigade was also

former by Governor Maia. . He ordered the Public Gaol to equipped with printing presses, type and plant for the industrial occupation of prisoners who are paid their work. " The printing office". worked on the system which obtains the Hongkong Gaol, prisoners being credited with the money carned and are given the accumulated earnings upon the expiry of the term of

their imprisonment. Hitherto Macao was noted for the excessive fees charged for the assignment of leasehold property. Governor succeeded in inducing the Government at Lisbon to agree to limit and situated to the south-east the reduction of the assignment fees from 8 per cent. to 2 per cent. on the value of property sold. This 50 feet deep and under, \$1.50, for concession is of far-reaching effect and, is stiuch appreciated, especially Works Department has been doing by the Chineso community at Macao, received the Governor's cornest come same procedure be adopted with sideration and he his well-liked them, cyidence of this being forth with all difficulty about contractors Chinese Chimber of Commerce tion and so forth. I see no objection Chinese Hospital Committee and to proposals 2 and 3 of the H.S.D. other Chinese institutions. For the Dr. Ozonio: If the work he carried many benefits already conferred on out departmentally great supervision the Japanese military authorities. (In Macno the Municipal Council proclaimed the Governor "Benemerito and has placed his portrait within the Council Chamber.

Senhor Mais proceeds to Lisbon at decessor that the only way to get his own request to confer with the limewashing done in a way Minister for the Colonies on import- was worth doing was to have it done ant subjects concerning the administ departmentally. That was an dis tration of Macso. His Excellency tinct change of front and he leaves for Lisbon hopeful that he will speaker) did not think he would have succeed in securing great benefits for time to work out the scheme for the his intention to return to Macao as in October. URINALS AND FLUSHING Brothers at 147 Connaught Food

Mr. Bowley minuted! If will fix an automatic flushing the application should be

subject to fixing an automatic flush

Mr. CHAN KAT MING minuted Refuse. The Colony can ill afford to allow its supply for flushing

The PRESIDENT minuted: I agree with Mr. Chan Kai Ming) There a public prinal on the Praya about 60 yards away. The Board refused the application.

LIME WASHING PROBLEMS Respecting a report by the subcommittee ou a complaint with regard to limewashing certain houses

Hung Hom, Mr. CHAN KAL MING minuted: "I would suggest that the lime washing be made a departmental work throughout the City and the cost charged to the owners on a sliding scale, say \$1, per flat for houses of houses over 50 feet deep. The Public work in the way of concreting prihowas in Hongkong, are large vate lanes and repairing pathways roperty owners. All public quest under verandalis at the cost of th private house owners, why not the by limewashing? This will do away coming from such bodies as the and disputes about the date of inspect followed by a battalion of infantry on

The CHAIRMAN said he was extremely gratified that Mr. Chan Kai trate and the Chief Staff Officer of the As has already been announced. Ming agreed with him and his prethe Colony which he governs. It is Colony before the limewashing season a few bodies were badly mutilated.

Mr. Bowley proposed that 2 Madame do Mais, the Governor's extra men be employed temporarily

fied herself in a very prominent. The Chairman sed he proposed to manner with all works of charity in make a free offer to property owners Macao, which has been the means of district. If no applications were

#### CHENGCHIATUNG BRAWL

RESULT OF CONSULAR INVESTIGATION.

THROUGH REUTER'S AGENCY.

Peking, Aug. 312... Reuter's agency learns from a reliable source that although the full Japanese report of the Chengchiatung affair is not get available, the following is briefly the result of the Consular investigation.

It is stated that the Chinese soldiers A meeting of the Sanitary Board of the 27th and 27th Division, who do

At 3 pan. on she 13th a Japanese resident at Chengchiatung and a soldier belonging to the 28th Cavalry Regiment THE CHOLERA RETURNS.

Mr. Bowley asked the following congested with traffic. An altercation arose in which a second soldier joined The two soldiers then beat the Japanese with poles. The Japanese immediately How many deaths from cholera reported the matter to the Japanese have been reported from Macao policeman, who went to the spot to for the weeks ending 13th, 20th investigate the matter. Meanwhile the

The policeman then went with the and did he satisfy himself that Japanese resident to the headquarters the 61 deaths reported as due to of the 28th cavalry regiment in order to "Enterite Febril" during the interview the Chinese commander (the week ending 13th August and the Japanese affirm that it is in accordance 16 deaths reported as due to with general usage in such cases in the "Gastro-enterite" during the same interior to deal directly with the period were not due to cholera? Chinese military authorities, it is not

#### " AT THE BARRACES.

The "policeman "passed through the main entrance of the court of the inn which was the headquarters of the regiment and reached the door of the Commander's quarters, whereupon four or five soldiers appeared who said that the Commander was out, which statement the policeman doubted and again asked for an interview.

The soldiers then threatened the

policeman, pointing their rifles, and ordered him to leave the promises The policeman then went to the Japanese barracks and asked for un

escort of soldiers, which was provided. This consisted of 23 soldiers under & When the Japanese entered the court of the inn the Chinese soldiers cried "Ta-chang" "Ta-chang" (fighting, fighting,) and pointed their rifles through the windows of the house surrounding

the court. Nevertheless the policeman, accompanied by an interpreter and a few be Macso Medical Authorities. soldiers, proceeded to the small gate.

Dr. Johnson satisfied himself leading to the rooms of the Chinese Commander, where the Chinese soldiers threatened to shoot, but the policeman explained he had not come to fight. The policeman then entered the Commander's rooms. (Whether he was allowed to enter or whether he forced an entrance is not clear). In the room were an sofficer and a soldier. The

former informed the policemen that the Commander was out. Meanwhile more Application was made for the Chinese soldiers appeared and domanded that the Japanese should leave immediately, pointing pistols. it appears that then one Chinese soldier fired, hitting a Japanese soldier in the abdomen. the Thereupon fighting began in which the policeman and eight Japanese soldiers were killed in the court and the sublieutenant and several soldiers wounded. The remaining Japanese, seeing that

it was impossible to continue the fight, Mr. Goldano minuted Grant retreated hastily to their own barracks dursted by an overwhelming purifier of Chinese, who surrounded the Japanese barracks, where, originally, there, were about fifty soldiers quartered, the num ber of which was now reduced through casualties to between thirty and forty. The Chinese fired on the barracks from high ground near by and the Japanese

MAGISTRATE DETAIRED.

Fighting continued till 6.20 p.m., when the Chinese magistrate came to the Japanese barracks and asked the Japaness to cease fighting,

The magistrate then left but soon returned with the chief staff officer of the Occupation Commissioner, who promised that the 27th and 28th Division should be ordered to leave the city. It was then 6.40 p.m. A few minutes before 7 p.m. the

magistrate and the chairman of the Chamber of Commerce informed the Japanese Commander that the Chinese troops were withdrawing from the city but soon after, and before the magistrate ind chairman had left the barracks. the Chinese again opened fire. The Japanese Commander then ordered the magistrate and chairman to remain in the barracks as a guarantee that their promise would be carried out. The Magistrate was detained till the evening of the following day, when his son was substituted in order to enable the magistrate to attend to affairs "

The two hostuges were held till 7/o.m. on the 16th, when Japanese cavalry reinforcements arrived, these being These reinforcements were quartered

on the houses of the merchants as arranged between the magistrate and will be needed to check abuse by the this connexion it appears probable that some pressure was brought to bear.) On the morning of the 21st the Japanese Officer interviewed the magis-Occupation Commissioner and demanded the withdrawal of the Chinese troops to thirty limitside Chengchiatung, which was agreed to.

The bodies of the Japanese policement and the eight soldiers killed in the beginning were delivered at the Japanese barrackwat 10 o'clock the same evening that the fight occurred but their arms and belongings were missings and

### THE GERMAN NAVY'S AIMS.

PLAN TO DESTROY ARCHANGEL

Admiral Hautefeuille has addressed is published in the Homme-Enchaine: I am astonished that journalists allow

themselves to be hyphotised by the heaviness of the British, losses, and have failed. to understand the fulness of the British naval victory. It is one of the greatest victories, owing to the results arising from it. The Germans had two objects, both of the same nature. A fleet of the line as strong as possible which could advantageously present its flank to the large British patrols, and an exit from German ports in order to permit the escape of twoi rapid forces intended u act at a distance. The first consisted of two very powerful cruisers, escorted ly some ten ships of less size and strong body of destroyers. The second orce consisted only of two ships, Wiesbaden and the Elbing. The first force, as has been stated

and evidently was to destroy certain Wu Kuo-hoa. La Han-san and Teha Ta- should be handed over to the Chinese ships which supply Russia with food by way of Archangel and Koln, and bring. back grain for England and France, and also was to destroy Kola and the establi lishments of the port off Archangel, which are of wood." The miccess of such an operation would have meant the isolation of Russia and her reduction to extremities.

The second group was only composed of two vessels, but two vessels launched since the beginning of the war. constructed for the destruction of commerca in distant sens, yessels with high speed. speed and to avoid frequent cooling. Suppose these two vessels appearing the South Atlantic and the Pacific. masters of the oceans, and their success would be greater than that

his assistance. troved the Russians or, at any rate,

in German and Danish ports. Ax regards the Wiesboden and the Elbing, which were sunk, their career Is it not then, an immense victory to

have maintained the freedom of distant oceans and to have assured the continuation of summer communications with Russia! And if the results are considered, is this not an admirable victory! thousand British sailors perished on 31st May, as many French soldiers fall every day around Verdun.

Pain Became Unbearable Could Not Work. Had No Sleep or Nearly a Month. Cuticura Healed.

7. St. Annes St., Westminster, London, W., Eng.—"The terrible disease first started through a shaving rash which spread all over my face and under my ohin and not being able to shave, the pain and suffering became unbearable. I was unable to keep to my work and for nearly a month? I suffered like this.

"One day a friend told me to send for a free sample of Cutieura Soap and Olatment which I did. I then purchased a tables of the Scap and a box of Ointment. After buying had no sleep for nearly a month, I began to find the lighing slowly stopping.
In about three weeks I was cured of my dreadful discuso. I was able to shave again." (Signed): O. Anderson, June S. 1914.

Sample Each Free by Post With 32-p. Skin Book. Address postcard: F. Newbery & Sons, 27, Charterhouse Eq., London, Bold throughout the world.

### HONGKONG TIDES.

The tide-table given below has been compiled at the National Almanac Office in London from the result of the analysis

in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Taim Sha Tsui during the years 1887-8-9.

The zero of the table corresponds with the zero of the sounding in the Admiralty Chart, which has been found to be 4 feet 3 inches below mean sea level.

To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 3 feet 4 inches, and on the gauge at Lamont Dock, Aberdeen, add 10 feet 6 inches to the height given in the table.

September 0th to 12th, 1918.
